Provider Profile

Information provided by the provider describing their agency:

Volunteers of America is a national, faith-based human services organization, Volunteers of America has been a forefront of social service for more than 113 years – helping adults and children with special needs reach their full potential. Our Connecticut Program helps people with a wide range of disabilities reach their vocational, social and independent-living goals. Our skilled and caring team works closely with the clients to create an individual service plan that focuses on their strengths, builds on existing support systems and addresses areas needing remediation. Ours clients include adults with visual and hearing impairments, acquired brain injuries, developmental disabilities, autism, mental illness, dual diagnoses and more. From teaching a client how to wash and fold their own laundry and take their medication on schedule, to working side-by-side with a client at their job every day, our staff will do whatever it takes to help the people we serve optimize their opportunities and be as independent and successful as they can be in their local communities.
